

WHO WE ARE

At Absolute Machining, we provide precision CNC machining services, specializing in high-quality components for the firearms, aerospace, automotive, and industrial sectors. Our advanced facility in Fort Wayne, Indiana, utilizes cutting-edge technologies to deliver efficient, high-quality manufacturing with minimal waste. We offer tailored solutions to meet the unique needs of each client, ensuring project success with reliability and efficiency. Partner with us for machining solutions that drive operational success.

WHAT WE DO

- **Precision CNC Machining:** State-of-the-art CNC mills and lathes for high-precision components in industries like firearms, archery, automotive, and industrial equipment.
- **Custom Machining Solutions:** Tailored machining solutions for perfect fit and functionality.
- **Rapid Prototyping:** Fast, accurate prototyping to validate designs before production.
- **Finishing Services:** Anodizing, powder coating, sandblasting, and laser engraving to enhance both functionality and appearance.
- **Engineering Consulting:** Expert advice on design optimization, material selection, and manufacturing processes.

DIFFERENTIATORS

- **Strategic Location:** Located in Fort Wayne, IN, offering efficient logistics and access to key industries and contractors.
- **Advanced Equipment:** State-of-the-art CNC mills, lathes, and technology for tight tolerances and complex parts.
- **Customized Solutions:** Tailored machining for optimal performance, working closely with clients.
- **Proven Track Record:** Trusted by industry leaders like Christensen Arms and Lyman.

CORPORATE EXPERIENCE

Our work for leading commercial clients in various industries demonstrates our expertise in handling complex projects and meeting industry standards. Our dedicated, results-driven approach has fostered long-term relationships and repeat business with each of the organizations listed below.
